

**Restore Louisiana Task Force**  
**February 24, 2017**

# Agenda

- Action Plan Approval
- HUD Technical Assistance Updates
- Updated Budget
- Timelines: Action Plan, APA 1, RFPs, Homeowner Program, Small Business NOFA

# Action Plan Approval Letter

- Sufficiently demonstrated how economic revitalization activities will support housing recovery, as required by the Federal Register Notice
- Disproportionate allocation to rental activities
- *[HUD] would like to commend the State for its commitment to increasing the speed of recovery. This is evidenced by the historically fast Action Plan submission, whereby the State submitted the Action Plan for HUD review 45 days in advance of the 90 day deadline... [HUD] shares this commitment and was able to expedite the publication of the FRN... While [HUD] has up to 60 days to review Action Plans, this review and approval was completed in less than 45 days.*

# HUD Technical Assistance Updates

- Reimbursement extension
- Additional contributions from homeowners to add to scope of work and quality of materials
- Stop-work requirements and reimbursement limitations

## Program Allocations

Restore Louisiana Homeowner Programs	\$1,293,693,120
Restore Louisiana Rental Housing Programs	\$130,000,000
Restore Louisiana Economic Recovery and Revitalization Programs	\$62,000,000
Infrastructure Program (PA Match)	\$105,000,000
Administration and Planning Costs	\$66,278,880
<b>Total of both Appropriations</b>	<b>\$1,656,972,000</b>

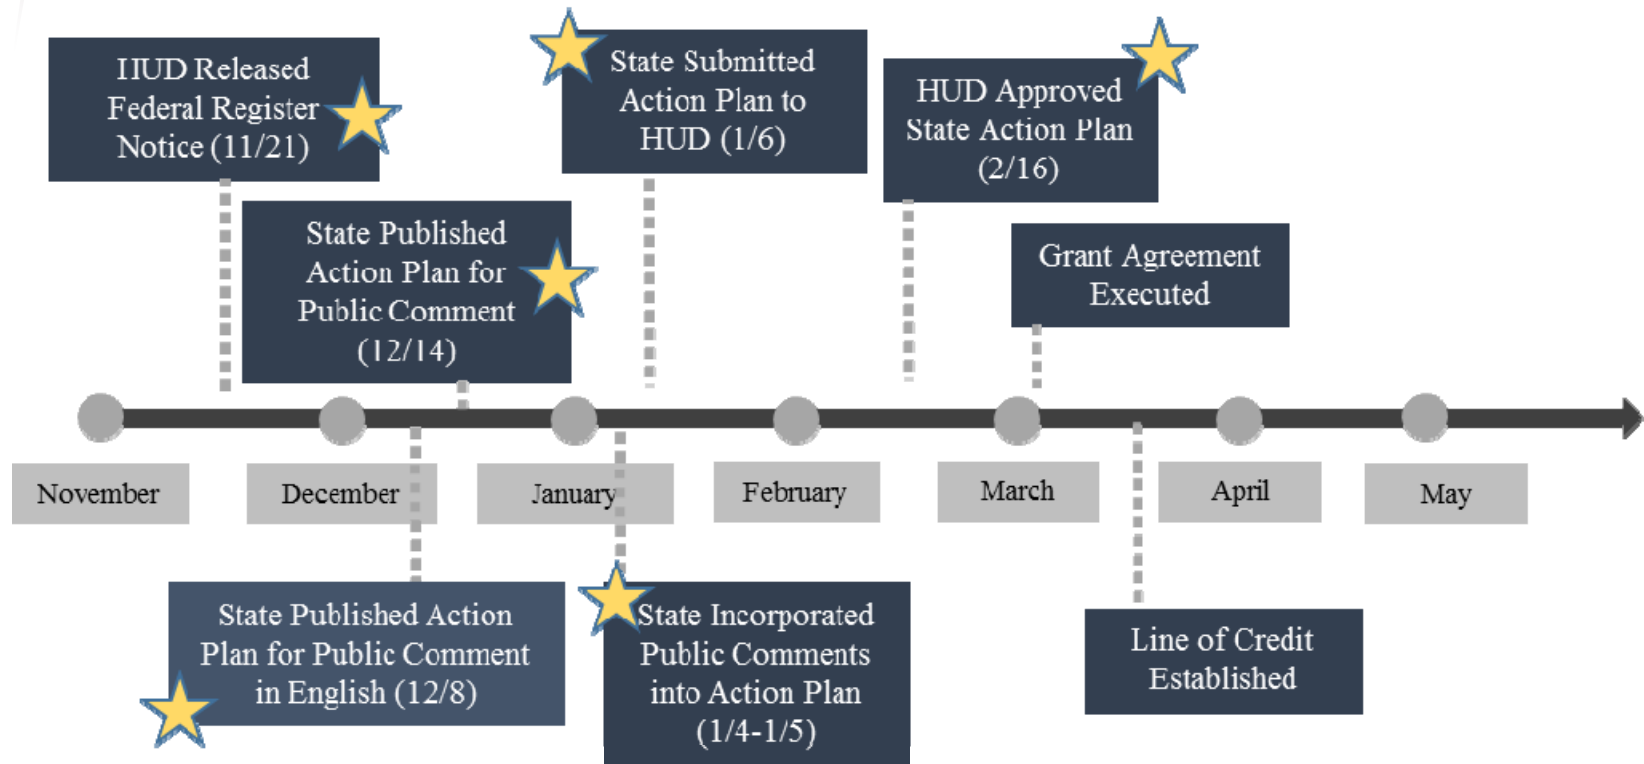

# HUD Federal Register Notice Timeline: First Appropriation

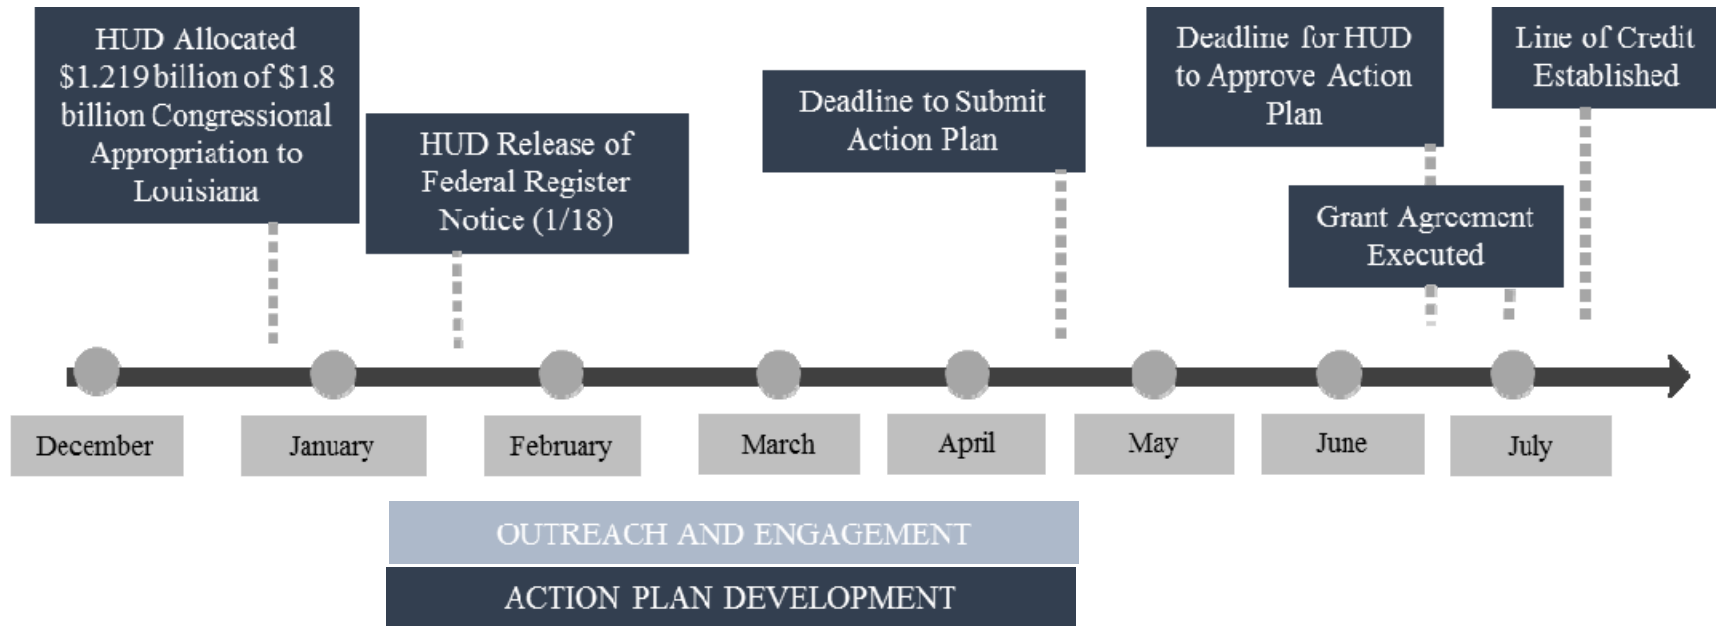

# OCD-DRU Timeline: \$437,800,000

**“The Department would like to commend the State for its commitment to increasing the speed of recovery. This is evidenced by the historically fast Action Plan submission...”**

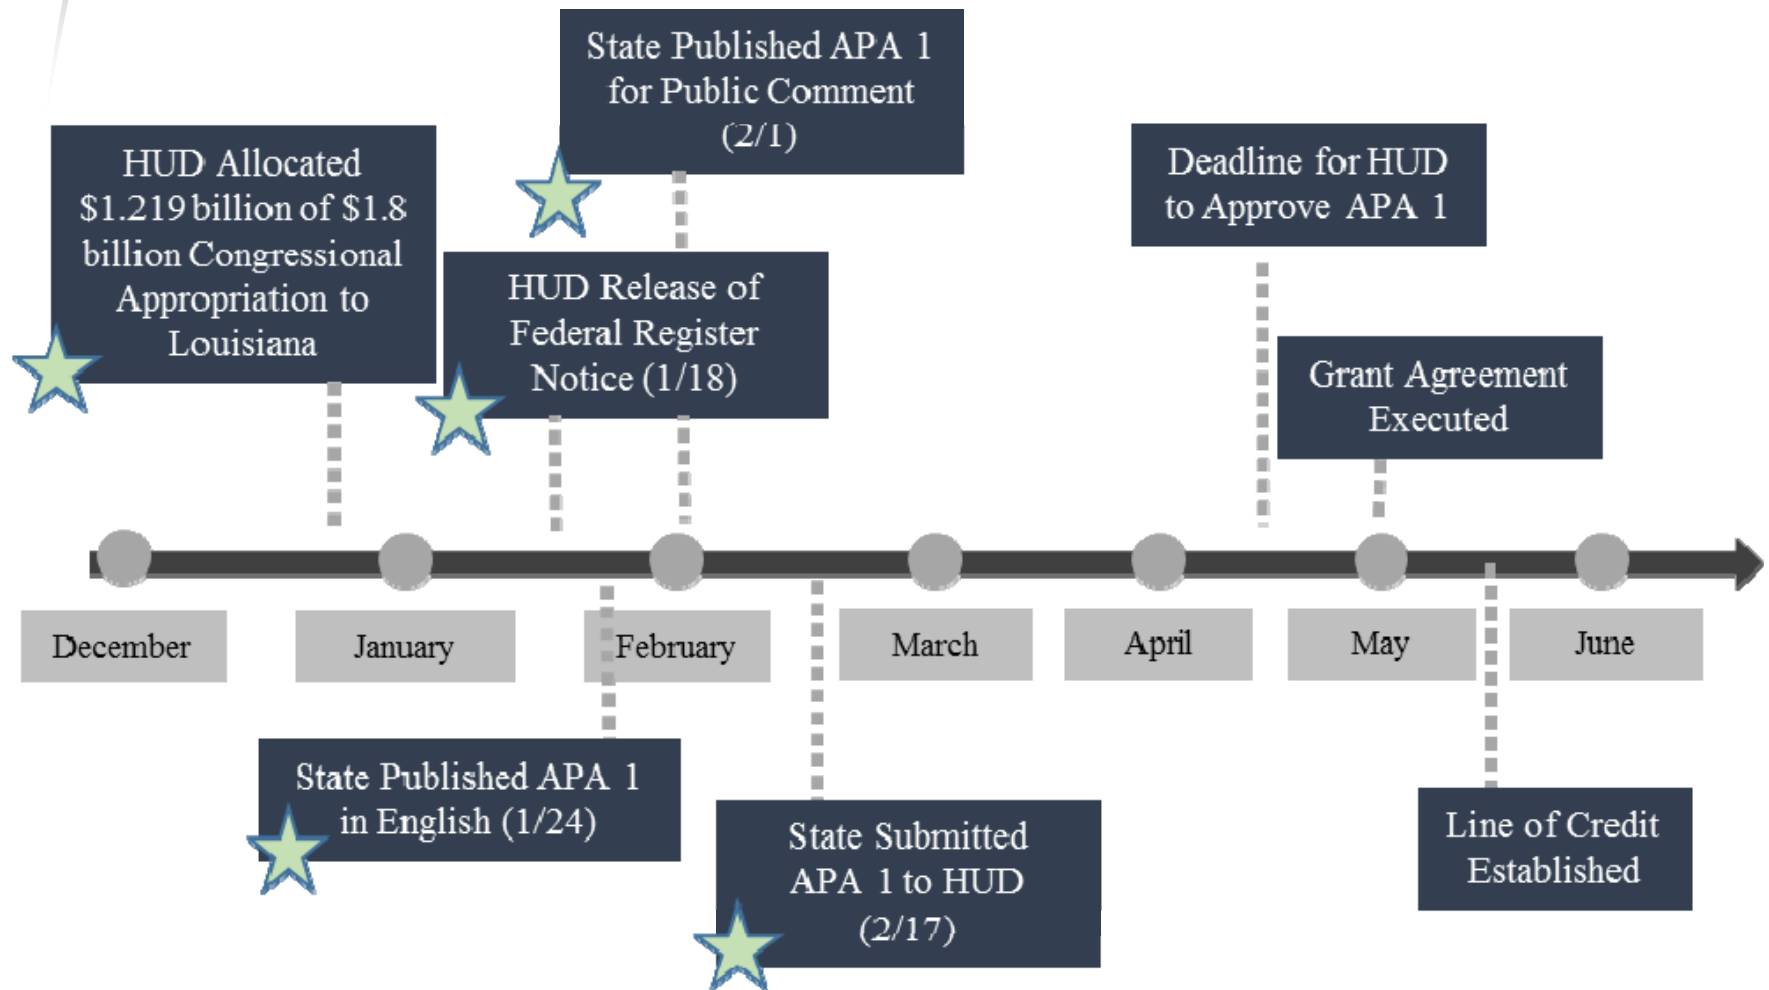

# HUD Federal Register Notice Timeline: Second Appropriation

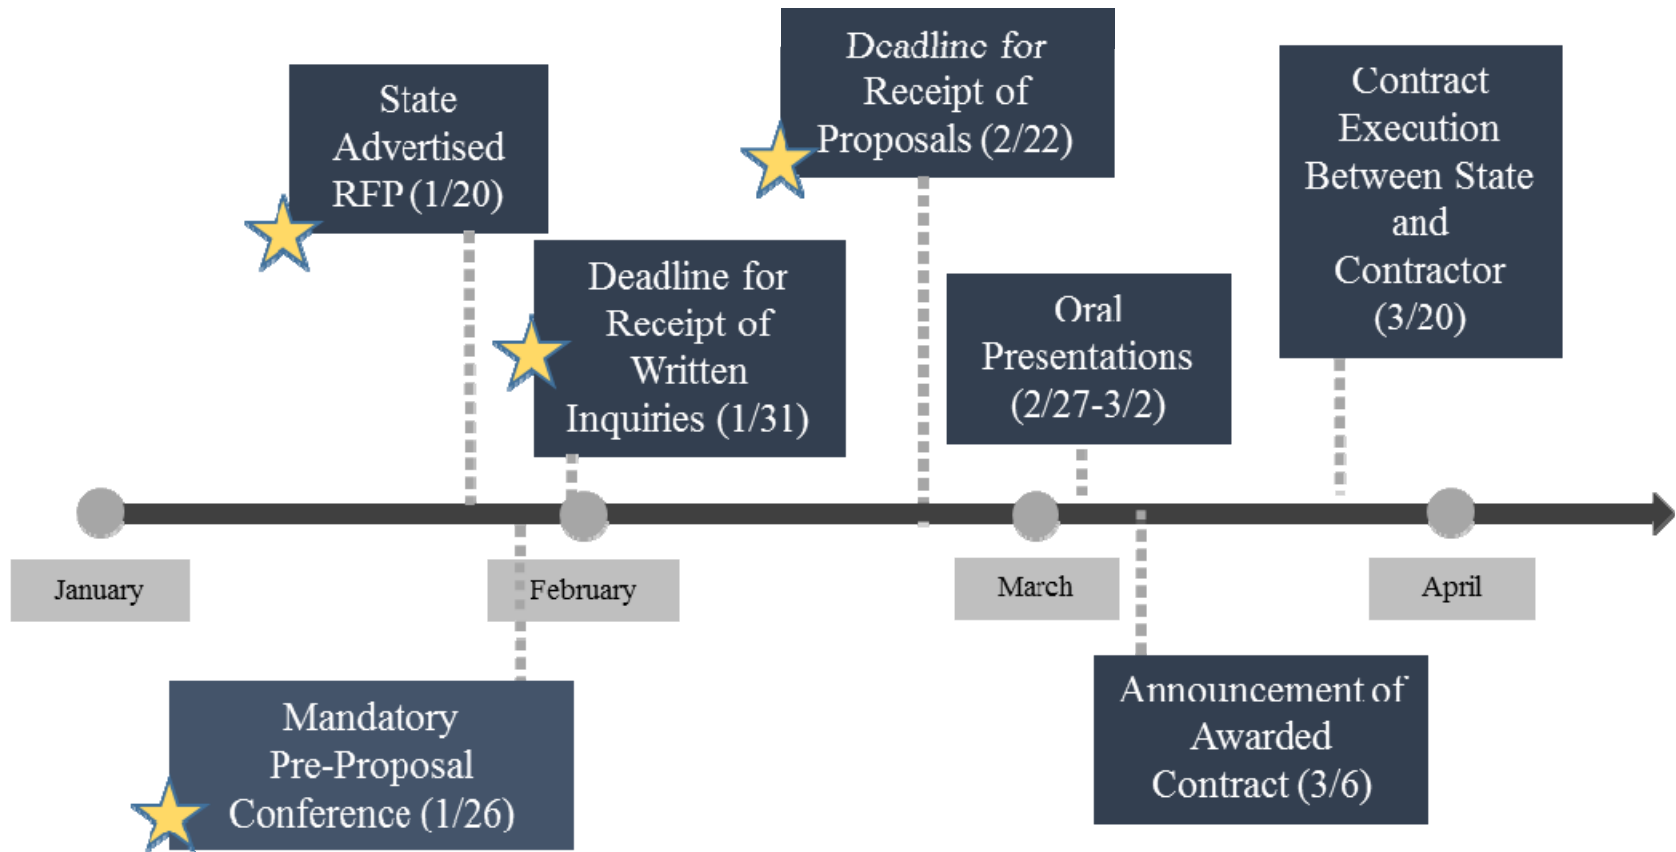

# OCD-DRU APA 1 Timeline: \$1,219,172,000

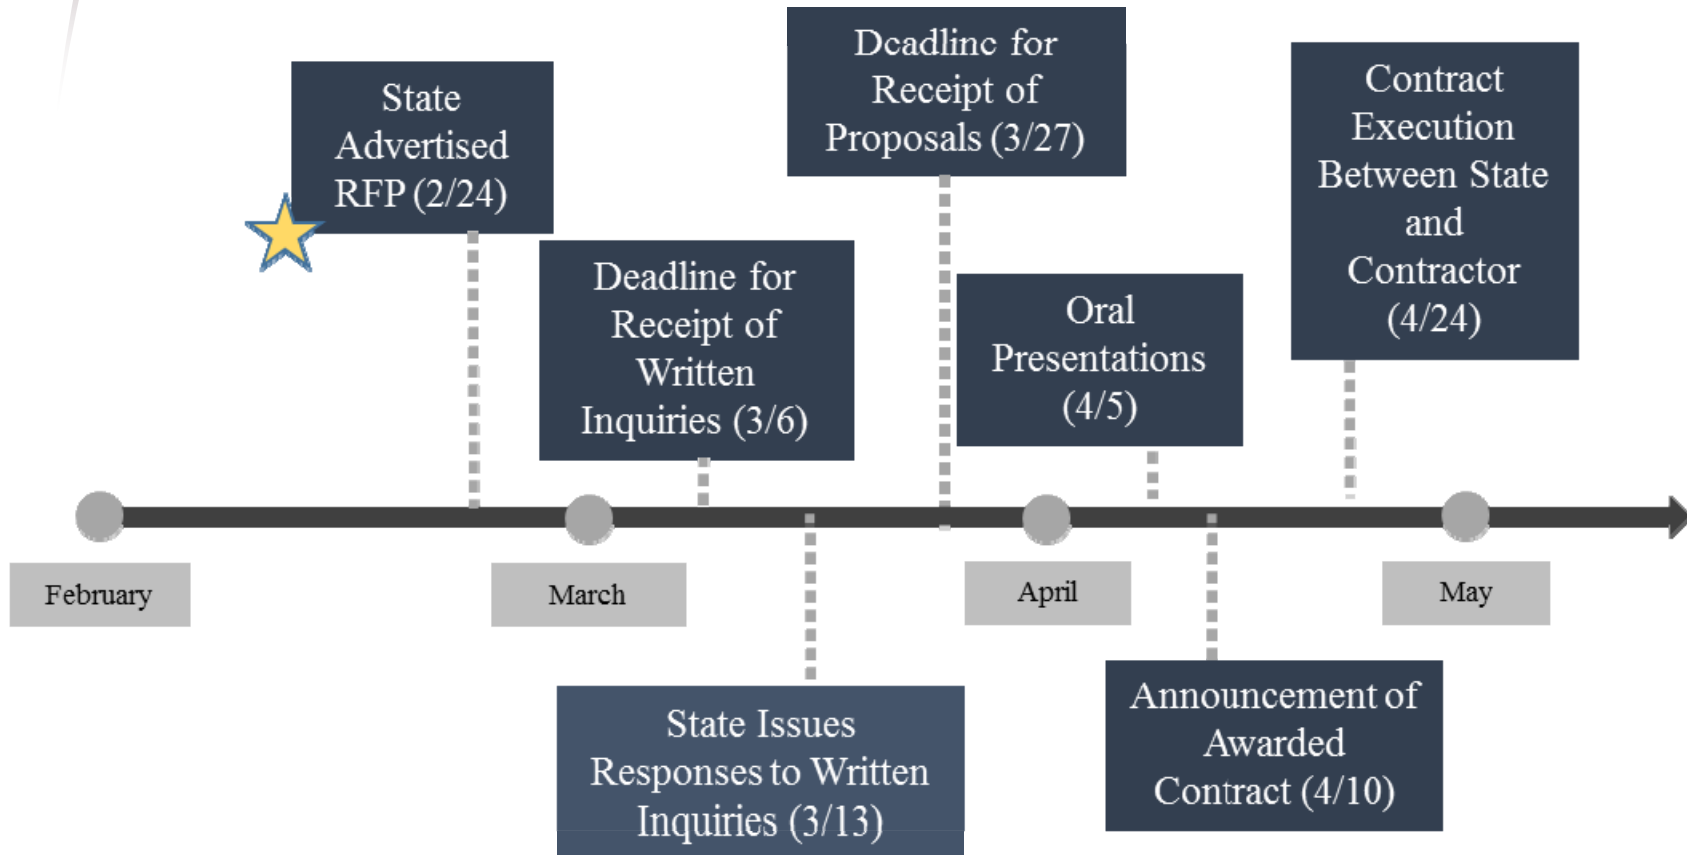

# Homeowner Program Manager RFP

# Homeowner QA/QC RFP

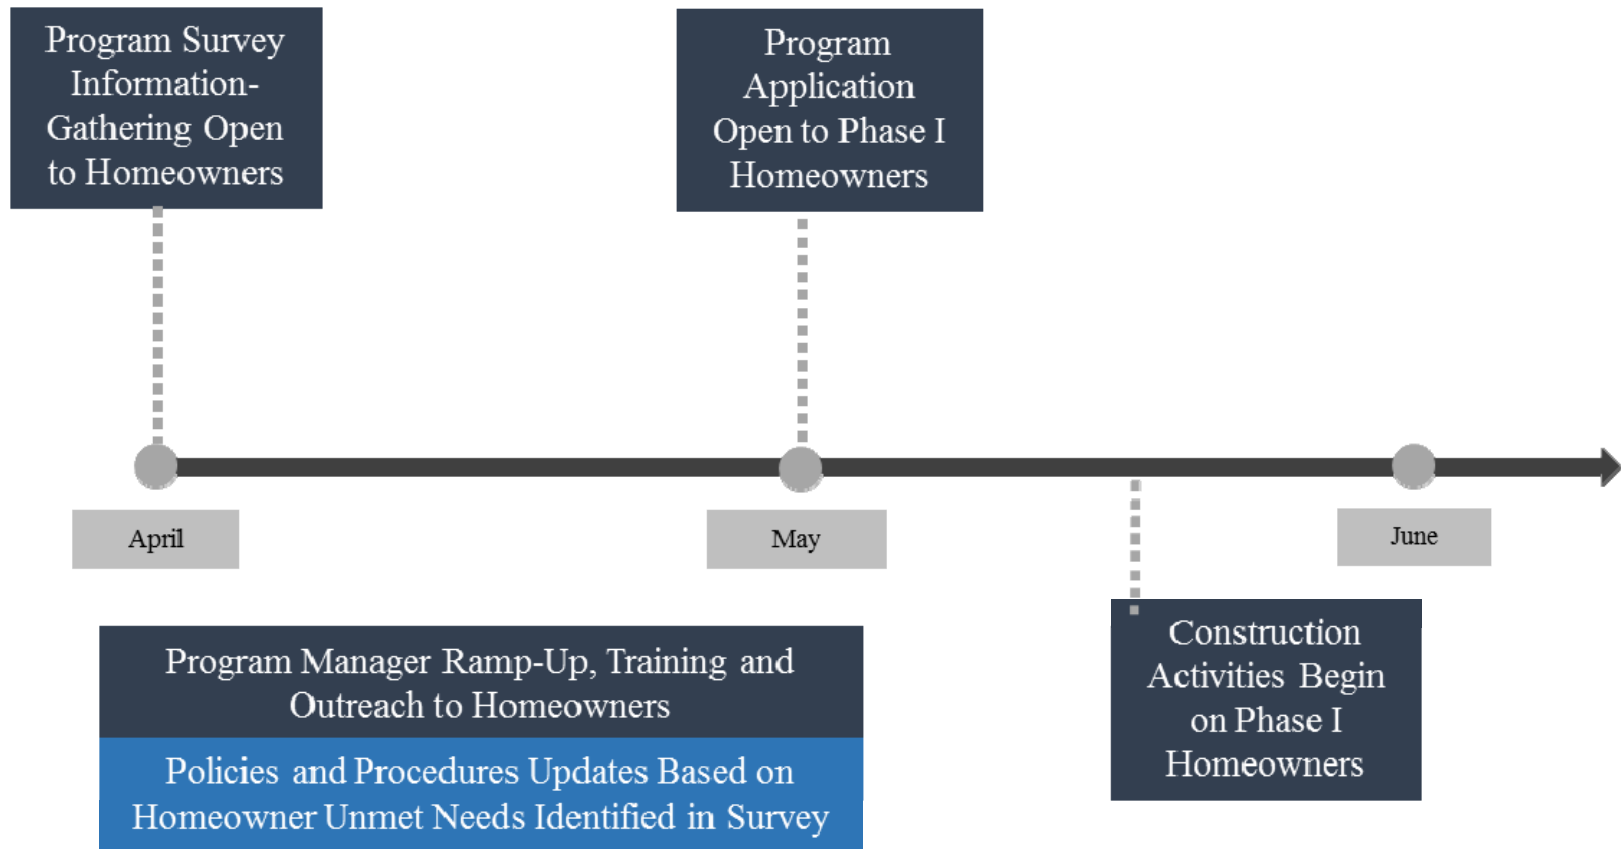

## QA/QC Contractor Primary Functions

- Monitor and report on the Homeowner Program Manager Contractor for compliance with the Restore LA Homeowner program policies and procedures, to include consistency in damage estimates, scope of work pricing and duplication of benefits
- Monitor and test procedures to detect fraud, waste and abuse of program funds
- Assist in developing internal quality controls to ensure consistency of work product among the Program Managed homebuilding contractors

# Homeowner Program Implementation

# Survey and Application

- **Survey:** Two primary functions:
  - Minimize the number of homeowners that are required to “stop work,” or pause their recovery process while they await environmental clearance and program processing.
  - Collect more accurate data on the status and needs of impacted homeowners to assess program policies and procedures.
- **Application:** 6 phases
  - Phases I-II: LMI, Elderly, Persons with Disabilities
  - Phase III-IV: 10 MID Parishes
  - Phase V: All other Parishes
  - Phase VI: Reimbursement for 100% Complete

# Small Business Loan and Grant NOFA
