The following constitute minutes of the Climate Initiatives Task Force Manufacturing and Industry Committee Meeting and are not a verbatim transcript of the proceedings. Audio and video recordings of the meetings are available for viewing and kept at the Office of the Governor-Coastal Activities Office in Baton Rouge, LA.

Meeting Agenda

I. Call to Order

II. Roll Call

- Mr. Meyers, Mr. Hardy, Ms. Collins-Wright, Mr. Johnson, Mr. Stream, Ms. Moss, Mr. Shantz, Mr. McBride, Ms. Saunders, Mr. Johnson, Ms. Orr, Mr. Anderson

III. Approval of Agenda

Motion by Ms. Moss
Seconded by Mr. McBride
Unanimously Approved

IV. Welcome and Opening Remarks — Tim Hardy, Breazeale, Sachse & Wilson, LLC; Jason Meyers, LDEQ (Video 00:10:35)

V. Member Introductions — Committee Members (Video 00:15:42)

VI. Climate Task Force Structure, Process and Timeline Overview — Lindsay Cooper, Office of the Governor (Video 00:26:15)

- Briefed members on Governor's Executive Order regarding impacts of climate change.
- Emission reduction goals from 2025-2050.

- Louisiana is #8 in top 10 emitting U.S. States and among top 5 in emission intensive states by GDP & per capita.
- Discussed U.S. National climate assessment key messages, outlook by 2050 in urban infrastructure, health risks, and increased flood risks in coastal & low lying regions.
- Also discussed natural ecosystems transformed as well as economic and health risks for rural communities. Explained why this effort matter to LA and that it exacerbates vulnerabilities and creates new risks.
- Outline and structure of task force values and objectives. Task force composed of 4 advisory groups and 6 committees. Explanation of roles for each section.
- Task force deliverables:
 - *Interim report by Feb. 2021*
 - *GHG inventory update by mid-2021*
 - *Final report by Feb. 2022*
- Review of climate initiatives, processes, timeline steps and tasks.
- Legal Advisory Group Scope: Strategies and mechanisms that can be implements by executive & legislative branches of federal, state, local and tribal governments as well as the private sector.

VII. Discussion of Committee Charge — Committee Members (Video 01:06:58)

- Review emissions reductions strategies identified by the committees and provide information and assistance to the Task Force and the committees to ensure a comprehensive, informed evaluation of strategies.
- Examine opportunities to reduce emissions within manufacturing and industrial sectors. Will consider opportunities to deploy cleaner sources of energy to fuel operations, enhance efficiencies, reduce unintentional releases, capture or reuse emissions, offset emissions and other measures that reduce net emissions from combustion and non-combustion manufacturing and industrial activities in Louisiana.

VIII. Structured Decision-Making Process — Harry Vorhoff, Office of the Governor (Video 01:03:22)

- Analyze decisions to identify solutions, achieve desired outcomes in a transparent manner, encompasses broad set of methods, fundamental objectives, responses to legal mandates and integrated science & policy.
- Explanation of SDM framework, defining problems, 2005 GHG emissions overview, transportation sector emissions and fundamental objectives and how we get there.

IX. Identifying Committee Objectives — Committee Members (Video 01:09:15)

- Allowed each committee member to discuss their individual goals and objectives.

X. Discussion of Next Steps — *Harry Vorhoff, Office of the Governor (Video 01:42:30)*

- Discussion of timeline to interim report and steps between now and the next meeting.

XI. Public Comment

XII. Adjourn

Motion by Mr. Johnson
Seconded by Ms. Orr
